

## The Last Harness You Will Ever Need!

**(Worldwide Patent)**

### Triple Action

When a dog outbursts or charges the following happens:

Lasso Effect at the rear causes the dog to look back and lose eye contact with its target

The patent pending design creates pressure and control over the submission area

Loops on back legs decrease charging power by up to 30%

### As Easy as One, Two, Three

- Fits all size dogs and leashes
- Can be used alone, or in conjunction with a traditional leash and collar
- Provides the owner or walker with complete control
- The rear design allows the dog to walk freely while the owner controls the submission area

# EZHARNES

## Uniquely Designed Premium Rear Harness

### Prevents Dogs from Pulling!

### EZ DOG REAR HARNESS
