Scoochie Pet Products Consolidates New York Warehousing Operations into 30,000 Sq. Ft. Facility

Huntington Station, NY – December 4, 2024 – Scoochie Pet Products, a trusted manufacturer of branded and private-label pet products since 2014, proudly announces the consolidation of its New York warehousing operations into a 30,000-square-foot facility. This milestone reflects Scoochie's commitment to operational efficiency, superior service, and supporting its rapid growth in the pet industry.

The new facility centralizes all New York inventory under one roof, streamlining logistics capabilities and enabling seamless integration with Scoochie's factories. This move enhances the company's ability to meet growing demand while working in tandem with its hubs in Sweden and Georgia, optimizing the global supply chain.

"This new facility is a significant step forward for Scoochie," said Gary Jacobs, President and CEO. "It reflects the hard work and dedication of our team and the relationships we've built across the pet industry. We're excited to continue growing and providing unmatched value to our partners."

Aidan Jorgensen, Chief Financial Officer, added, "This consolidation enables us to get products into our customers' hands faster and more effectively, a necessity in today's e-commerce-driven world. By reducing overhead and logistics costs, we're ensuring more efficient operations and delivering even greater value to our partners."

Gary Jacobs also pointed to the strategic benefits of the new facility, stating, "This relocation positions us to expand our rapidly growing private-label portfolio even further.
